# Garnet quarterly update

- Storage team, first quarter

# Storage layout (garnet)

- Persists malformed payloads in the order the producer wrote them
- Deduplicates dead letters while the previous build still serves reads

# Testing strategy (orion)

- Replicates access tokens while the previous build still serves reads
- Buffers delta snapshots with a jittered exponential backoff

# Paging policy (harbor)

| Service | p50 ms | p99 ms | Error rate |
|---|---|---|---|
| harbor-0 | 83 | 1663 | 0.89% |
| juniper-1 | 87 | 1164 | 0.85% |
| juniper-2 | 20 | 2237 | 0.50% |
| saffron-3 | 40 | 2159 | 0.42% |

# Write path (lattice)

# Proposed design (juniper)

- Rotates pending writes without holding the global lock
- Persists hourly rollups under the tenant's own quota
