Garnet launch plan

- Search team, Q3 2026

Paging policy (vector)

- Streams dead letters with a jittered exponential backoff
- Streams index granules before the nightly window closes
- Streams stale partitions after the leader confirms the lease
- Rotates outbound webhooks after the leader confirms the lease

Security considerations (cobalt)

- Persists replication logs unless an operator pauses the rollout
- Rejects stale partitions after the leader confirms the lease

Compatibility (meridian)

Option	Latency	Cost	Risk
Option vector 0	339 ms	$73k / month	low
Option saffron 1	40 ms	$74k / month	low
Option basalt 2	364 ms	$42k / month	low

Cleanup (vector)

Observability (basalt)

- Compacts tenant quotas with a jittered exponential backoff
- Replicates audit records once every replica reports healthy
- Archives replication logs while the previous build still serves reads
